About HCA Regulation in Alberta:

How/Why did this happen?

In December 2020, the Government of Alberta passed Bill 46. This law changed the Health Professions Act to include HCAs as a regulated profession. Because of this, the College of Licensed Practical Nurses of Alberta (CLPNA) will become the College of LPNs and HCAs of Alberta (CLHA) on February 2, 2026.

Once regulation starts, HCAs will:

- Need a practice permit to work as an HCA in Alberta
- Follow standards of practice, code of ethics, and ongoing professional development as determined by CLHA

What is Regulation?

Many health professions are regulated to make sure people get safe, high-quality care. Regulation sets rules for education, skills, and behaviour, so patients (or Residents) can trust that HCAs know what they're doing and will act responsibly.
